ASSERVIO

Quality Assurance Reimagined.

Empower your team and digitize your property claims estimate review process.

Introducing Asservio.

The estimate review quality assurance solution.

Asservio is a leading-edge, digital platform that allows you to transform the property estimating quality assurance process. Using automation, estimate review can be expedited in minutes instead of hours or days.

Asservio will help you save time by enabling a no-touch claims payment process through automated estimate review. No matter the size of your team, Asservio's rule engine can either be pre-configured based on Crawford's deep expertise and best practices or configured based on the estimating guidelines of your organization.

Asservio also integrates with industry standard estimation platforms—allowing you to easily digitize your processes.

The Benefits.

- Facilitates low-touch or no-touch workflow, streamlining the quality assurance process.

- Pre-configured rules engine allows for easy implementation.

- Integrated with leading estimation platforms for ease of use.

Asservio
Digitally transform your quality assurance process.

The Asservio Difference.

Your quality assurance process can be quicker, more efficient, and more accurate than ever before.

Speed:
Automate the Quality Assurance Process

Instead of the traditional approach to quality assurance, taking hours or days, Asservio automation transforms the process into a faster no-touch experience. Now, your estimation cycle time will be more efficient, while increasing visibility through a real-time dashboard that captures data throughout the workflow.

Differentiation:
A Configurable Rule Engine

Regardless of the size of your organization or its needs, the Asservio platform comes pre-loaded with robust rules, which may be customized for your organization. This provides easy implementation, giving you the tools to digitize your estimating process without the hassle.

Accuracy:
Drive Better Outcomes

Asservio is leading the charge to enhance and optimize the estimate review process—helping companies of all sizes digitally transform their workflow to reduce claim cycle times, increase estimate accuracy, and save on costs. Asservio can help your organization validate scope and documentation of claims, ensure revision enforcement, and identify training opportunities based on an adjuster's accuracy score.

Increase estimate review efficiency by up to

25%*

Automated Quality Assurance Process

ESTIMATOR WRITES ESTIMATE → ASSERVIO PRE-UPLOAD SCAN → ARE THERE FINDINGS? — NO → ESTIMATOR UPLOADS ESTIMATE → ASSERVIO AUTOMATED ACCURACY SCORE CARD → QUALITY ASSURANCE REVIEW

YES → ESTIMATOR ADDRESSES ASSERVIO FINDINGS
